

## Writing on LebJournal

To start writing on LebJournal, you have to be a registered user. Every time you visit LebJournal and you want to write on it, you have to login (login button found on the left of the screen) first. Once you press on this button, it will take you to the place where you can enter your username (in the 1<sup>st</sup> white box) and your password (in the 2<sup>nd</sup> white box), and then you press on the login button.

Once you do that, you will log to your space. Then, you can see at the top of the page the following toolbar:

You press on the write button, so that it takes you to the place where you can post what you had written.

In the title bar, you put the title of what you had written. In the wide white space you put what you had written. But before you paste what you wrote just put at the beginning lebjournal.com-.

As you can see there is the bar that has lots of buttons. Each button has different function where I will explain them in details in the following:

**B** : This is used to make words in bold (dark color).

 : This is used to make words in italic (example: *lebjournal*)

 : This is used to underline the word in the middle (example: lebjournal)

 : These two buttons are used to insert a list (ordered or unordered)

 : These two buttons are used for indentation

 : These buttons are used for text alignment

 : These buttons are used for inserting a link in your text (to make the link open in a new window)

 : This is used to insert a picture with your text. When you press it the following window opens:

The screenshot shows a dialog box titled "Insert/edit image". It contains the following fields and controls:

- Image URL:
- Image description:
- Alignment:
- Dimensions:  ×
- Border:
- Vertical space:
- Horizontal space:

Buttons: Cancel, Insert

In the image url, you put the link to the image. In the alignment, you choose the position of the image. In the dimensions, you choose the height and width of the image. And in the border, you choose the thickness of the image's border (if you want one).

The other buttons are not frequently used.
